

Executive Bio

Brandon Bromberek

*Vice President, Measurement Solutions
Emerson Automation Solutions*

Brandon Bromberek is a vice president in Emerson's measurement solutions business. He enables customers in the oil and gas industry to apply Emerson's automation technology capabilities to drive results for more sustainable operations, optimized production and costs. Bromberek's sustainability expertise centers on hydrogen and how automation is advancing developments across the value chain.

Bromberek joined Emerson in 2018 after 13 years in oilfield services. He sits on the board of directors for the Society of Petroleum Engineers' Flow Measurement Technical Section and holds a project management license from the Project Management Institute.

He holds a Bachelor of Science in mechanical engineering from Purdue University and a Master of Science in management for the oil and gas industry from Heriot Watt University.
